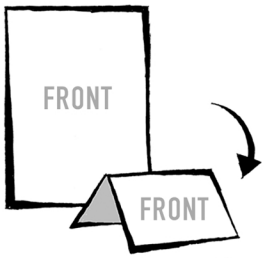
THANK YOU FOR PURCHASING YOUR 2DANIM8OR ZINE. WE HOPE YOU HAVE GREAT FUN CREATING AND USING IT.

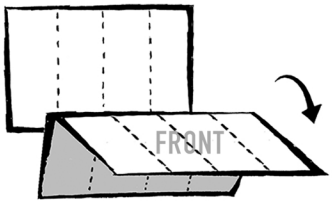
INSTRUCTIONS: Print on both sides of your paper the 2-page PDF file you received together with this non-print instruction file. The illustrated side is the front and the text side is the back. Fold and cut your Zine in the manner indicated below. If you should have any problems in creating your Zine, please let us know via the 'CONTACT' page on our www.2danim8or.com website.

Let us know also how you get on with your Zine - and if you has suggestions on how we might improve it, or of other Zine ideas you would like to see us make.

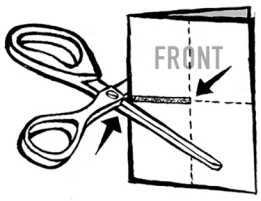
1:
Fold paper in half lengthwise.



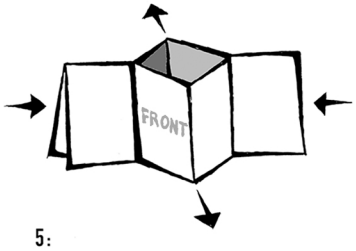
2:
Fold lengthwise again, giving it 3 folds.



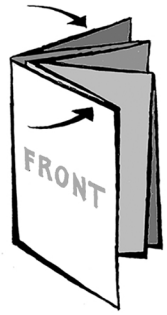
3:
Open up the sheet and now fold it in half on the shortside this time.



4:
Fold in half lengthwise again and cut along the centerfold to the next fold.



5:
Fold in half on the short side again and push together lengthwise so that the inner section opens up.



6:
Keep pushing lengthwise together to that the middle section closes up. Then fold all together, in book form, making sure that the front is at the front.

Enjoy!
